

Tree Species Effects on Soils: Implications for Global Change

NATO Science Series

A Series presenting the results of scientific meetings supported under the NATO Science Programme.

The Series is published by IOS Press, Amsterdam, and Springer (formerly Kluwer Academic Publishers) in conjunction with the NATO Public Diplomacy Division.

Sub-Series

I. Life and Behavioural Sciences	IOS Press
II. Mathematics, Physics and Chemistry	Springer (formerly Kluwer Academic Publishers)
III. Computer and Systems Science	IOS Press
IV. Earth and Environmental Sciences	Springer (formerly Kluwer Academic Publishers)

The NATO Science Series continues the series of books published formerly as the NATO ASI Series.

The NATO Science Programme offers support for collaboration in civil science between scientists of countries of the Euro-Atlantic Partnership Council. The types of scientific meeting generally supported are "Advanced Study Institutes" and "Advanced Research Workshops", and the NATO Science Series collects together the results of these meetings. The meetings are co-organized by scientists from NATO countries and scientists from NATO's Partner countries — countries of the CIS and Central and Eastern Europe.

Advanced Study Institutes are high-level tutorial courses offering in-depth study of latest advances in a field.

Advanced Research Workshops are expert meetings aimed at critical assessment of a field, and identification of directions for future action.

As a consequence of the restructuring of the NATO Science Programme in 1999, the NATO Science Series was re-organized to the four sub-series noted above. Please consult the following web sites for information on previous volumes published in the Series.

Series IV: Earth and Environmental Sciences – Vol. 55

Tree Species Effects on Soils: Implications for Global Change

edited by

Dan Binkley

Colorado State University,
Fort Collins, CO, USA

and

Oleg Menyailo

Institute of Forest SB RAS,
Krasnoyarsk, Russia

 **Springer**

Published in cooperation with NATO Public Diplomacy Division

Proceedings of the NATO Advanced Research Workshop on
Trees and Soil Interactions, Implications to Global Climate Change
August 2004
Krasnoyarsk, Russia

A C.I.P. Catalogue record for this book is available from the Library of Congress.

ISBN-10 1-4020-3446-6 (PB) Springer Dordrecht, Berlin, Heidelberg, New York

Contents

List of contributors	ix
Preface	xiii
1. Gaining Insights on the Effects of Tree Species on Soils	
Dan Binkley and Oleg Menyailo.....	1
2. Effects of British Columbia Tree Species on Forest Floor Chemistry	
Cindy E. Prescott and Lars Vesterdal.....	17
3. Nutrient Turnover, Greenhouse Gas Exchange and Biodiversity in Natural Forests of Central Europe	
Sophie Zechmeister-Boltenstern, Evelyn Hackl, Gert Bachmann, Michael Pfeffer and Michael Englisch.....	31
4. Tree Species Effects on Nitrogen Cycling and Retention: A Synthesis of Studies Using ¹⁵N Tracers	
Pamela H. Templer.....	51
5. Tree Species Management and Nitrate Contamination of Groundwater: A Central European Perspective	
Andreas Rothe.....	71
6. Plant Effects on Soils in Drylands: Implications for Community Dynamics and Ecosystem Restoration	
Jordi Cortina and Fernando T. Maestre.....	85
7. The response of Belowground Carbon Allocation in Forests to Global Change	
Christian P. Giardina, Mark D. Coleman, Jessica E. Hancock, John S. King, Erik A. Lilleskov, Wendy M. Loya, Kurt S. Pregitzer, Michael G. Ryan and Carl C. Trettin.....	119

8. How Nitrogen-fixing Trees Change Soil Carbon	
Dan Binkley.....	155
9. Effects of Tree Species on C- and N-Cycling and Biosphere- Atmosphere Exchange of Trace Gases in Forests	
Hans Papen, P. Rosenkranz, Klaus Butterbach-Bahl, R. Gasche, G. Willibald and N. Brüggemann.....	165
10. Significance of Forests as Sources for N₂O and NO	
Klaus Butterbach-Bahl and Ralf Kiese.....	173
11. Microbial Processing of Humic Substances from Meadow and Forest Soils	
Z. Filip and M. Tesařová.....	193
12. Phosphorus Compounds under Different Plants in an Artificial Soil Formation Experiment	
M. I. Makarov and T.I. Malysheva.....	213
13. Short-term Microbial Kinetics of Soil Microbial Respiration – A General Parameter Across Scales?	
Hana Santruckova, Juliya A. Kurbatova, Olga B. Shibistova, Miluse Smejkalova and Eva Uhlířova.....	229
14. The Influence of Stand Density on Growth of Three Conifer Species	
R. S. Sobachkin, D.S. Sobachkin and A.I. Buzykin.....	247
15. The Siberian Afforestation Experiment: History, Methodology, and Problems	
L.S. Shugalei.....	257
16. Productivity of Six Tree Species Plantations for Three Decades in the Siberian Afforestation Experiment	
V.V. Kuzmichev, L.S. Pshenichnikova and V.A. Tretyakova.....	269

17. Biochemistry of Carbon and Nitrogen in the Siberian Afforestation Experiment	
E.F. Vedrova.....	281
18. Tree Species Effects on Potential Production and Consumption of Carbon Dioxide, Methane, and Nitrous Oxide: The Siberian Afforestation Experiment	
Oleg V. Menyailo and Bruce A. Hungate.....	293
19. The Formation of Soil Invertebrate Communities in the Siberian Afforestation Experiment	
I.N.Bezkorovaynaya.....	307
20. The Transformation of Plant Residues under Different Tree Species in the Siberian Afforestation Experiment	
L.V. Mukhortova.....	317
21. Tree Diversity and Soil Biology: A New Research Program in French Guyana	
Jacques Roy, Stephan Hättenschwiler and Anne-Marie Domenach....	337
Index.....	349

List of Contributors

Gert Bachmann, Institut für Ökologie und Naturschutz, Althanstr. 14, A-1090 Wien, Austria

I.N. Bezkorovaynaya, V.N. Sukachev Institute of Forest, Russian Academy of Sciences, Siberian Branch, Academgorodok, Krasnoyarsk, Russia, 660036

Dan Binkley, Department of Forest, Rangeland and Watershed Stewardship; Graduate Degree in Program in Ecology; and Natural Resource Ecology Laboratory, Colorado State University, Ft Collins, CO 80523 USA

N. Brüggemann, Forschungszentrum Karlsruhe GmbH, Institute for Meteorology and Climate Research, Atmospheric Environmental Research (IMK-IFU), Kreuzeckbahnstr. 19, D-82467 Garmisch-Partenkirchen, Germany

Klaus Butterbach-Bahl, Forschungszentrum Karlsruhe GmbH, Institute for Meteorology and Climate Research, Atmospheric Environmental Research (IMK-IFU), Kreuzeckbahnstr. 19, D-82467 Garmisch-Partenkirchen, Germany

A. I. Buzykin, V.N. Sukachev Institute of Forest, Russian Academy of Sciences, Siberian Branch, Academgorodok, Krasnoyarsk, Russia, 660036

Mark D. Coleman, USDA Forest Service, Southern Research Station, Savannah River, PO Box 700, New Ellenton, SC 29809, USA
